Indonesia

SUMMARY

A highly motivated computer science fresh graduate with a strong interest in software development. I have experience building applications using languages like JavaScript, PHP, and Python, and am proficient in database design and Object-Oriented Programming (OOP) principles. As a developer, I possess a strong work ethic, passion for problem solving, sense of responsibility, and am consistently seeking to improve my skills. I thrive on challenges, using logical thinking to deliver effective solutions, and am adept at working both independently and as part of a team to provide meaningful contributions.

EDUCATION

Duta Wacana Christian University   **2018 – 2025**

Bachelor of Computer Science | GPA: 3.07/4.00

(High School) SMA Budya Wacana Yogyakarta   **2015 – 2018**

PROJECTS

Fullstack Subscription Tracker
June 2024 – July 2024

- As part of my personal project, I developed a subscription management website allowing users to track their subscription services like Netflix, Spotify, etc and receive automated email reminders 7 days before the renewal date.
- Use Node.js, Express.js, MySQL, and Prisma (ORM) for efficient database operations.
- Focused on backend architecture, including CRUD operations, RESTful API, input validation, proper error handling, and email scheduling.

- Built a simple frontend using HTML, CSS, Bootstrap, and JavaScript.

Implementation of Progressive Web Apps on Bible Distribution Data Management Website for Lembaga Alkitab Indonesia (Indonesian Bible Institution)
January 2024 - December 2024

- As part of my thesis, I developed a website for managing Bible distribution data using Laravel, Livewire, CSS, Bootstrap, and JavaScript
- Progressive Web Apps are implemented so that the website can be installed on all devices, have a responsive display, and can be accessed offline on certain pages.
- Throughout the development process, maintained communication with the Indonesia Bible Institute to ensure that the website met their needs.

Company Profile Website for Lembaga Alkitab Indonesia (Indonesian Bible Institution)
May 2023 – September 2023

- As part of my university internship program, I developed a company profile website for Indonesia Bible Institution.
- Responsible for re-designing and developing the website using Vue.js and Bootstrap.

CERTIFICATION

Information Technology Specialist   **June 2024**
- HTML and CSS specialist by Certiport

SKILLS

Hard Skills

Frontend: HTML, CSS, Bootstrap, Tailwind CSS.

Programming Languages: JavaScript, PHP, Python.

Database: MySQL, MongoDB.

Library and Framework: Node.js, Express.js, Laravel, Next.js.

Tools: Visual Studio, Git, GitHub, Postman, Docker, Figma.

Soft Skills

Teamwork, problem solving, public speaking, leadership, adaptability.

Languages: Indonesia, English (intermediate).
